ABOUT WRAP CONVERSIONS

The label on the 'new' ring sling or short wrap will be placed on the original hem unless otherwise requested.

Your wrap must be freshly washed and dried in order to accurately measure and cut, so please do not use your clean wrap again before shipping it.

The conversion cut length for a ring sling is 2.2 meters, which is 2 meters post conversion. If you would prefer your ring sling to be a different length, please indicate that in the space provided. All ring slings will have the Uppymama floating shoulder.

Pinstripe and blessing thread middle markers cannot be moved. We can move folded thread middle markers on short wraps.

Please note: a minimum of 2.5cm of length will be taken up in the hem of the new wraps or slings.
